UNC
CAROLINA INSTITUTE FOR
DEVELOPMENTAL DISABILITIES

Purpose of Research Study:

- To gather the opinions of Black families about participating in autism research
- Make sure the voices and experiences of Black families of children with autism are heard and accurately represented

Description of Study:

- Phone interview that will take ~1 hour (no travel required)
- We will be asking questions about your family, your child's autism diagnosis, and your opinions about research

Participants Will Receive:

- \$50 gift card as compensation for your time

Eligibility

- Must be a Black/African American parent/caregiver of at least one Black child with autism spectrum disorder

Scan here with your smartphone camera to confirm your eligibility through a brief 1-minute survey
