

**Post-Doctoral Position  
Transdiagnostic PET Biomarkers of Mental Health  
Problems**

Applications are invited for a postdoctoral position at McGill University and the Montreal Neurological Institute focused on PET measured biomarkers for addictions and addiction-related disorders. The ideal candidate will be bilingual (English & French), have a strong background in either brain imaging or developmental trajectories and be interested in learning more about both.

Salary is competitive with travel funds available for participation at scientific conferences.

To apply, please send your CV, letter of interest, names and e-mail addresses of two references, and copies of two or three selected publications to [marco.leyton@mcgill.ca](mailto:marco.leyton@mcgill.ca).

Start date: Between January and April 2021

Duration: 2 years (possibility of renewal)
